File converter

File popup

File Selection Dialog: A dialog to allow the user to select the file(s) they want to convert.

Output Location Dialog: A dialog to specify where the converted file(s) should be saved.

Conversion Progress Dialog: A dialog to show the progress of the conversion process, including a progress bar and possibly additional information.

Completion Dialog: A dialog to inform the user when the conversion is complete and provide options such as opening the converted file or converting another file.

Error Dialog: A dialog to display any errors that occur during the conversion process and provide options for the user to retry or cancel the conversion.

Confirmation Dialog: A dialog to confirm actions such as starting the conversion or closing the application.
